					Education of patients / general public			Since the comprehensive management system for SMA in China started late, most patients with SMA are in a loosely managed state without medicine. The expectations of patients and parents for medical treatment are not high, and the proportion of regular visits to the hospital is very low. Of the more than 1,500 patients who are registered in the real name of the Meier SMA Care Center, the proportion reported by the parents to have a past hospital follow-up record is less than 100 20/20. With the advent of the era of treatment, comprehensive management and regular follow-up have become an important factor affecting the prognosis of SMA patients. It is hoped that through this project, a set of guidance schemes conducive to the regular follow-up of SMA patients and parents will be explored.
China		Pharmaceutic	Beijing Meier Spinal Muscular Atrophy Care Cente	http://www.meier.c	Infrastructure	CNY	50,000	Integrate the latest breast cancer diagnostic guidelines, the latest progress, and literature databases, and build an intelligent, scientific, standardized, and standardized decision support system for breast cancer clinical diagnosis

China		Pharmaceutic	Beijing Pain Challenge Charity Foundation	http://www.chinaic	Education of patients / general public	CNY	136,840	On the International Rare Disease Day in 2022, a series of online public advocacy activities will be launched, and the public will be invited to pay attention to rare diseases through the sharing of patient stories and creative H5 dissemination.

Country of the patient	Organisation	Division	Receiving Patient Organisation	Website of Patient	Type of Support	Currency	Amount	Project description
					Education of patients / general public			As a disease in the first batch of rare diseases list, aHUS patients have a poor prognosis and heavy family burdens, timely and accurate diagnosis, relief of treatment pressure and access to disease information and medicines are the urgent demands of patients. This project promotes the awareness of doctors, patients, and the public about aHUS by delivering the latest information and trends in the disease area; enhancing the awareness and ability of aHUS patients' disease management by strengthening the communication and interaction between doctors and patients; expand the influence of the patient community and enhance the cohesion of the patient community through online and offline activities; empower patients and patient groups and promote the availability of drugs.

Lebanon	Pharmaceutic	Battle disease	www.ibattledisease	Sponsorship	USD	2,000	Intended purpose of activity: Roche is sponsoring the 28th Annual Meeting of the Lebanese Ophthalmological Society, providing continuous medical education to the medical ophthalmologists in Lebanon involved in the management of multiple retinal diseases including DME and wet AMD. The aim of this meeting is to bring the latest updates and clinical skills in the field of ophthalmology to colleagues in Lebanon and the Region. The topics that will be covered will include: Glaucoma, Pediatric ophthalmology, strabismus Cornea, Retinal Diseases and anterior segment Impact on Patient Journey/ Healthcare System: Roche is aiming to provide support to the ophthalmology medical community with activities that allows them to advance in retinal health care. By addressing different aspects of retinal patient journey, with a focus on DME and wet AMD. The need to do more for those patients is clearly identified. This specific activity will help share the new treatment solutions available for DME and wet AMD patients; highlighting the novel MOA of Angiopoietin 2 and VEGF A dual pathway inhibition.

				Education of patients / general public			With feedback from the membership, the SMFM Board of Directors revised the vision, mission, and strategic plan of the organization in 2022. The new strategic plan focuses on three goal areas: advocacy and partnerships; member engagement and support; and knowledge, education, and research. Within each goal area, there are detailed strategies that will guide the organization's work for the next three years. Diversity, equity, and inclusion are central to all of SMFM's work, and these principles are intentionally included in each goal area.
							Cost: Anti-Racism Special Interest Group Feb. 4, 2022 11:30am - 1pm Description: The overall goal of the annual SIG is intended to address and elevate scholarly work that focuses on eliminating racism and bias in maternity care; eliminating racial disparities in health outcomes; improvement in diversity, equity, and belonging in our subspecialty, SMFM, and in leadership. Speakers will include Dr. Vincent Berghella, Dr. Ebony Carter, and Dr. Allison Bryant Mantha.
