Canada	Pharmaceutic	ASSN OF HEMOPHILIA CLINIC	https://www.ahcdc.org Sponsorship	CAD	15,000.00	This conference is a medical and scientific symposium and is a cornerstone academic event for the AHCCD members to acquire new knowledge, meet and network with key partners in bleeding disorder care and management from physician colleagues, allied health professionals to industry partners.
Canada	Pharmaceutic	ASSN OF HEMOPHILIA CLINIC	https://www.ahcdc.org Education of patients / general public	CAD	80,000.00	The Association of Hemophilia Clinic Directors of Canada (AHCCD) is a non-profit organization established to ensure excellent care for persons with congenital bleeding disorders in Canada. Through clinical services, research and education our goal is to advance the quality standards of care across the country. There are several initiatives that the AHCCD is involved in, which requires varying degrees of support. No one organization will be exclusively supporting our activities, in fact our holistic approach is in an effort to share equitably in our initiative's costs, which benefits all of the stakeholders in our community. This money would go towards CBRD (Canadian Bleeding Disorders Registry) technology and data, support for National Mutation Testing Facility. Roche would have their logo and link to company on the AHCCD website.
Canada	Pharmaceutic	ASSOC DU CANCER DE L'EST	https://aceq.org/ Education of patients / general public	CAD	2,000.00	The program is focused on meeting patient needs around the use of digital technology through webcasts: young adults and families. Moreover, the use of the web to inform and support the oncology patients makes it possible to directly improve the quality of life of the person suffering from cancer and indirectly the relatives who surround him (whether spouses, children, siblings, friends, etc.).

Financial support from Roche will be used to support the planning, management and technical delivery of this very important meeting.

Country of the patient Organisation	Division	Receiving Patient Organisation	Website of Patient Type of Support	Currency	Amount	Project description
						There are over 100 different forms of liver disease affecting women, men and children across the country. Unfortunately, many forms of liver disease have no early warning signs which means that liver disease is often diagnosed at a very late stage where the damage has progressed so far that the risk of liver cancer is significant. Liver cancer is already one of the few forms of cancer on the rise in Canada and according to a recent study, non-alcoholic fatty liver disease (NAFLD) is projected to increase by 20% between 2019 and 2030 with estimated incident cases of hepatocellular carcinoma and decompensated cirrhosis increasing by up to 95%.

Canada	Pharmaceutic	MS SOCIETY OF CANADA	www.mssociety.ca	Education of patients / general public	CAD	1,000.00	Participation in "Webinar for long-term care home staff - People Living with MS". The presentation/webinar will focus on both a general overview of MS as well as go into specifics on symptoms, care needs and symptom management which is most often the areas requested by long-term care providers. Specifically, the webinar will look at:-What is MS - the physiology of MS, potential causes, prevalence, types of MS and general treatment options-Common Symptoms of MS - including for each of these, information on how these can impact both daily living as well as care needs in long-ter Participation in "Peer Support Group Guide/Manual Development and Distribution". The pandemic has significantly changed how MS peer support programs work and what volunteer facilitators and their members need to support them in these types of activities. Resources (i.e., guide/manual) that support increased social connection through virtual means, along with resources to support resiliency, self-advocacy, mental health, etc. are needed to help the community facilitate meaningful connections and dialogue amongst peers. This guide will provide guidance on: Support Group Best Practices, Etiquette, Hints and Tips, How to start a group, How to run a group ie: meeting formats, communication skills, ensuring a meeting runs smoothly, managing conflict etc., Resources for discussion ideas, credible sources of information, and tips for education presentations, Resources for resilience, mental health, etc., Group Maintenance and Evaluation, Virtual Group Resources, MS Society Information on other Programs and Services, Research and Events group members may benefit from knowing about
Canada	Pharmaceutic	MS SOCIETY OF CANADA	www.mssociety.ca	Education of patients / general public	CAD	1,250.00	Participation in "Fall MS 101 Panel Session" The MS Society's MS 101 online educational series offers people newly diagnosed with MS the opportunity to learn from health professionals in the field of MS care as well as people who are living well with MS. Additionally, participants have the chance to address questions and concerns that they may have about their recent diagnosis. Topics covered focus on 'what I would want to know', making sense of a new diagnosis, MS fatigue management, exercise and MS, and how the MS Society can help.
Canada	Pharmaceutic	MS SOCIETY OF CANADA	www.mssociety.ca	Education of patients / general public	CAD	1,750.00	Participation in "Young Adult MS Research Podcast Series Request" Engaging young adults with MS research is very important. The podcast will involve 1-2 members of the MS Society's Young Adult Committee interviewing a professor or graduate student about their research related to MS. The research will be approached informally such that complex topics are distilled for the listener and each episode will focus on one central topic related to MS. The podcast is intended to be informative but not intimidating. In order to achieve this, the plan is to learn about the researcher and/or student as a human being and transcend the typical boundaries between the lay audience and "science"

Canada	Pharmaceutic	MUSCULAR DYSTROPHY CANADA	https://muscle.ca/ Education of patients / general public	CAD	3,000.00	MDC's online education webinar series, called #LetsTalkNMD (Let's Talk Neuromuscular Disorders), aims to educate Canadians about different neuromuscular disorders and to share trusted, up-to-date information on topics identified by the neuromuscular community. Webinars are hosted virtually and panelists include: clinicians/researchers, policy makers/advocates (if applicable), and persons living with a neuromuscular disorder. Webinars are free and topics are designed for individuals impacted and their families, caregivers, healthcare professionals, personal support workers, professional caregivers, and general public. The webinar series provides balanced and objective information; consults a variety of stakeholders for content and expertise; provides opportunities for collaborations; features shared lived experience from individuals impacted.
Canada	Pharmaceutic	MUSCULAR DYSTROPHY CANADA	https://muscle.ca/ Education of patients / general public	CAD	10,000.00	Walk for Muscular Dystrophy: MDC is excited to launch the second Tenaquip Foundation Walk for Muscular Dystrophy on Saturday, June 19th at 3:00pm EST. This year's event will focus on celebrating the advancements related to research as well as, celebrating the neuromuscular community's research champions. The Walk for Muscular Dystrophy is our national signature event and together, We Walk and Roll as One to support the neuromuscular community. The Walk4MD live broadcast is a chance to come together as a community to support, honour, and create a world of understanding and compassion for persons impacted by neuromuscular disorders while raising funds to offer education and emotional support, provide programs and services, and fund critical research. Last year, the first virtual Walk4MD events raised \$775K; and had 209 teams and 826 participants and over 750 viewers of the live broadcast. *Walk for Muscular Dystrophy Sponsorship package is available upon request.

Ireland	Pharmaceutic	Arc Cancer Support Centre	https://www.arcca	Education of patients / general public	EUR	7,620.00	The purpose of the Project is: Patient education and meeting patients information needs is a fundamental aspect of patient-centered care. Producing an educational and information leaflet will enable patients with cancer and their families and carers to understand what type of psycho social services are available free of charge.
Ireland	Pharmaceutic	Arthritis Ireland	https://www.arthrit	Sponsorship	EUR	15,000.00	The meeting that is being sponsored is: The Arthritis Ireland Self-Management Initiative 2021. The purpose of the Sponsorship is healthcare-related education, in particular: during 2021 Arthritis Ireland is seeking to develop the following projects as part of an expanded Self-Management Initiative: - Living Well with Arthritis programme; - Breaking the Pain Cycle; - Self-management web material.
Ireland	Pharmaceutic	Canteen Ireland	https://www.cante	Support for healthcare infrastructure	EUR	7,000.00	The purpose of the Project is to support young people with cancer from 12 to 25 year of age by providing Psycho-Social and Psycho-Logical intervention programmes for patients isolated and with high anxiety levels as a consequence of Covid-19.
Ireland	Pharmaceutic	European Cancer Organisation	https://www.europ	Education of patients / general public	EUR	5,000.00	Description of the Project: An online national launch of a European wide campaign to bring attention to the need to urgently address the cancer backlog that has developed, including as a result of the impact of Covid-19, and to restore confidence of patients in cancer health services.
Ireland	Pharmaceutic	Fighting Blindness	https://www.fightin	Education of patients / general public	EUR	5,000.00	The purpose of the Sponsorship is healthcare-related education, in particular: lead online healthcare related education symposium in low vision research including AMD & DME.
Ireland	Pharmaceutic	Fighting Blindness	https://www.fightin	Education of patients / general public	EUR	8,000.00	The purpose of the Sponsorship is healthcare-related education, in particular: Condition-specific Educational Webinars in AMD & DME Description of the Project: Age Related Macular Degeneration Patient Mapping through Patient Lived Experience Survey. The purpose of the Project is to map the patient journey from that very first initial test right through to the lived experience and gain a greater understanding of the perceptions and beliefs that exist around the condition, treatment options and the supports available to them. Research will be conducted through a Patient Lived Experience Survey. The research study report will help inform the most effective pathway for access and deliver of treatment. In tandem with identifying the pathway, advocacy proposals will be developed to influence health and social policy with regard to the AMD journey for patients.
Ireland	Pharmaceutic	FIGHTING BLINDNESS	https://www.fightin	Sponsorship	EUR	35,000.00	To cost of over-service on Breast Cancer Awareness Month

Ireland	Pharmaceutic	Irish Haemophilia Society	https://haemophili	Consultancy fees	CHF	819.09	Patient expert committee (haemophilia)
Ireland	Pharmaceutic	Irish Haemophilia Society	https://haemophili	Sponsorship	EUR	21,172.48	The purpose of the Sponsorship is healthcare-related education, in particular: to create an improved website with improved integration with social media platforms added to the ability to roll out specific information campaigns. This will be of direct benefit to existing members and to all those with inherited bleeding disorders who look to the Society for information and updates. The Society provide educational grants to people living with haemophilia or inherited bleeding disorder or to their sibling (who in many cases could be a carrier of the condition) for post second level university or college courses. Grants provide some additional financial support to the individual who is attending college. Applications are submitted to the Society and vetted and scored by a subcommittee of the Board together with the Society administrator. The scoring template used includes points for strength of the application (financial need, number of family members currently attending college, history of involvement with the Society (for example as a volunteer or regular conference attendee). Grants are awarded for 1 year although applicants can apply each year during their course of study and applications will be judged on their merits each year. Support for funding of educational grants to people living with haemophilia or inherited bleeding disorder or to their sibling for post-second level university or college courses. The purpose of the Project is to: The educational grants, in addition to financially assisting the students, provide the Irish Haemophilia Society with a pool of prospective volunteers. Many of those in receipt of grants either proactively volunteer for the Society or do so following a request. This gives the Irish Haemophilia Society a pool of highly educated and motivated volunteers which enables them to rim their conferences by working with the youth and children. The volunteers, in turn, give them a pool of potential future leaders and Board members. Of the current Society Board of nine, 4 have been recipients of educational grants in the past.
Ireland	Pharmaceutic	Irish Haemophilia Society	https://haemophili	Education of patients / general public	EUR	24,000.00	The purpose of the Project is to provide service that is a direct benefit to patients to enable them to spend their precious final moments with their families, at home, and in the comfort of their own bed.
Ireland	Pharmaceutic	Irish Hospice Foundation	https://hospicefou	Sponsorship	EUR	7,000.00	The purpose of the Sponsorship is healthcare-related education, in particular: The 2021 World Café will capture information experience of accessing healthcare during Covid19 and suggestions on how to improve the situation. ILFA is campaigning for a dedicated Clinical Care Programme for Pulmonary Fibrosis from the HSE so that a defined care pathway will be introduced to improve the diagnosis and delivery of care for pulmonary fibrosis patients.

Ireland	Pharmaceutic	MULTIPLE SCLEROSIS SOCIETY OF IRELAND	https://www.ms-sc	Consultancy fees	CHF	846.28	Initial Breast Cancer Awareness PR fee incurred Consultancy fee for participation in an event
Ireland	Pharmaceutic	Multiple Sclerosis Society Of Ireland	https://www.ms-sc	Education of patients / general public	EUR	8,000.00	The purpose of the Project is: MS Ireland wish to conduct some research to help us understand the professional attitudes healthcare professionals have towards MS Ireland. We want to understand things like their level of awareness of the services we provide; if and when they feel it is appropriate to refer their MS patients to our organisation; if they signpost to our information etc. We are keen to engaging with the HCP's and enhance our relationships with them. Feedback from consultant neurologists and MS Nurses will help us to assess the current attitudes towards MS Ireland and identify any gaps that could be addressed. This insight will give us direction as to how best to engage with HCP's going forward to improve services and the experience of people living with MS. Support for research into the professional attitudes healthcare professionals have towards MS Ireland.
Ireland	Pharmaceutic	Neurological Alliance of Ireland	https://www.nai.ie/	Sponsorship	EUR	27,000.00	The purpose of this agreement: - appoint a representative to be its single point of contact for the Project, - provide expertise and input on all aspects of th campain, - collaborate on updating the Patient Deserve Better website and cover costs - provide funding to support the NAI's effort to spreadhead the campaign, develop materials and garner regional media attention, - act as a joint data contoller for this project.
Ireland	Pharmaceutic	Rare Diseases Ireland	https://rdi.ie/	Consultancy fees	EUR	3,500.00	Rare Diseases Ireland 2021 membership fee of round table of companies
Ireland	Pharmaceutic	Rare Diseases Ireland	https://rdi.ie/	Sponsorship	EUR	8,000.00	The purpose of the Sponsorship is healthcare-related education, in particular: The funding will pay the costs of the research project management organisation (name TBC) that will be responsible for designing and executing the survey and compiling results of the survey and/or the PR consultant, Don Delaney of D2 Communications who we generally use to promote research of this nature. The funding being requested will not be used for any core activities within Rare Diseases Ireland. Provision of services by the patient organisation supporting research, Orla will provide insight on the patient perspective on Digital Remote Patient Monitoring not specific to any particular digital monitoring device this will be in form of fire side dialogue. The purpose of the Activity is to provide the patient perspective on remote patient monitoring digital devices for the audience attending the smart health summit in collaboration with Dr Faye Drawnel, Development Lead - Digital Vision Remote Monitoring - Ophthalmology Roche . Orla talk is independent of any Roche digital monitoring devise.

							NATAP is a New York State non-profit corporation with 501(c)3 Federal tax-exempt status. Our mission is to educate individuals about HIV and Hepatitis treatments and to advocate on the behalf of all people living with HIV/AIDS and HCV. Our efforts in these areas are conducted on local, national, and international levels.
							Locally, NATAP collaborates with other organizations as well as city and state agencies. Nationally, NATAP works with Federal agencies such as the Food and Drug Administration and the National Institute of Health and advocates on policy and treatment issues. Jules Levin, our Executive Director, is a community representative to the AIDS Clinical Trials Group (ACTG) and the HIV Disease Research Agenda Committee (RAC) of the ACTG, where the Federal government conducts its HIV research.
							The treatment information that NATAP provides reaches medical professionals, allied professionals, patients, caregivers, underserved communities, and other interested parties in over 40 countries.

							"Ovarian Cancer Research Alliance (OCRA) is the oldest and largest ovarian cancer charity in the world. Incorporated in 1994, OCRA has raised over \$110 million in our quest to end ovarian cancer. As the largest private funder of ovarian cancer research, OCRA is also the only ovarian cancer-dedicated voice on Capitol Hill continuously advocating for hundreds of millions of dollars in federal research funding provided by the National Cancer Institute and Department of Defense, as well as for related health policies that will benefit patients and survivors.
							OCRA believes in a 360 degree approach in our efforts to eradicate ovarian cancer, so in addition to our research and advocacy, we also educate healthcare providers to ensure the earliest diagnosis possible through Survivors Teaching Students®; support patients with a peer-matching program in hospitals and online (Woman to Woman); convene the oldest and largest annual Ovarian Cancer National Conference®; train interested individuals to become effective advocates at both the state and federal level through the Advocate Leaders program; and unite grassroots ovarian cancer organizations through membership in our Community Partners."
