

GEP NEXXE Introduction

Supplier Training

Welcome

Welcome to the training “GEP NEXXE Introduction”!

This learning material was created in order to provide process overview of GEP NEXXE platform background, its business network and scope.

This training will take you through a short introduction to GEP NEXXE platform, why it is important and what are the key areas.

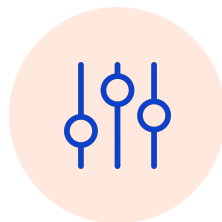

Thank you for joining our learning journey!

Who

This training is for Suppliers who need to get some background information on the GEP NEXXE platform

What

Essential understanding of GEP NEXXE business network and support resources

Why

Understanding background is fundamental to successfully executing business processes, ensuring optimal process outcomes, and identifying opportunities for continuous improvement

Table of contents

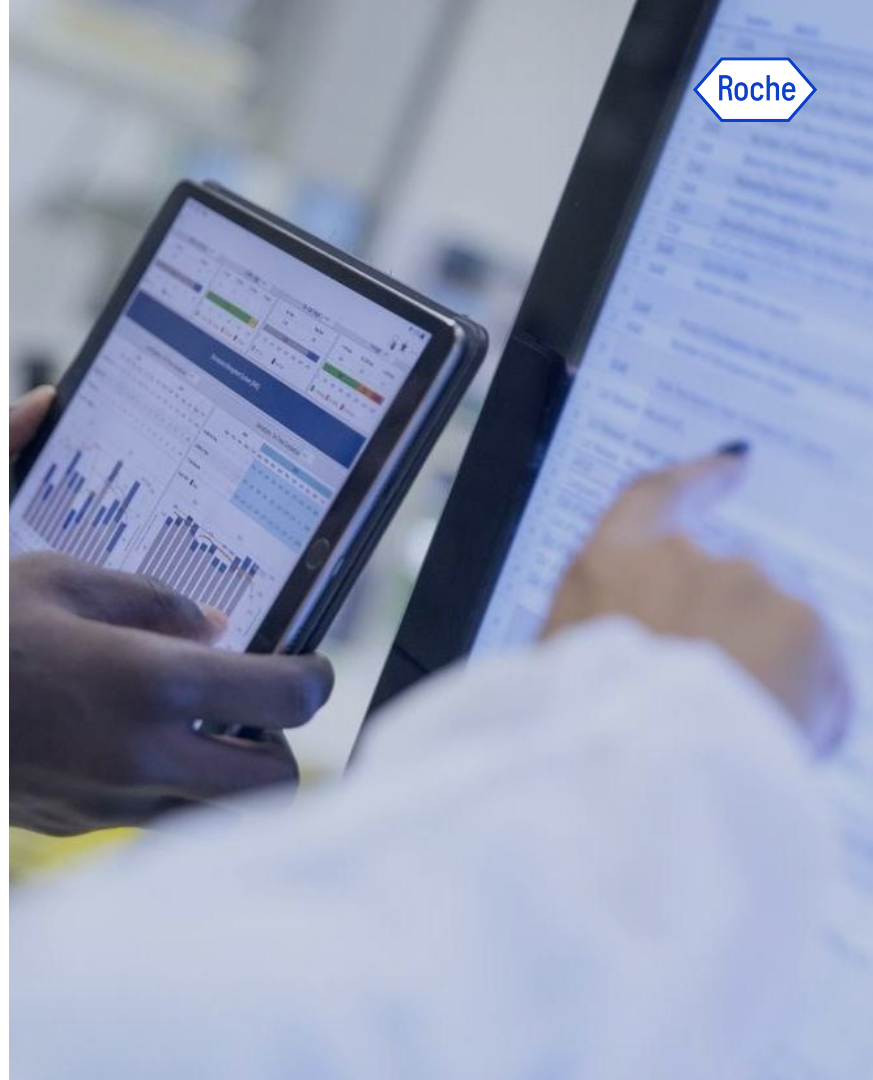

- 1 Introduction: Why GEP NEXXE?
- 2 Support resources

1 Introduction - Why GEP NEXXE?

Background

- Roche is introducing a new Supply Chain Collaboration platform built on GEP NEXXE
- GEP NEXXE will allow Roche to deliver higher quality service, closer collaboration, and greater value to the suppliers and partners who work with the company
- GEP NEXXE will be fully implemented by Roche in 2024
- As a trusted Roche partner, you may be requested to participate in product verification and pilot activities over the next few months

Key Changes

Easier to do business with Roche

- Real-time, synchronized, collaboration enables more accurate execution between Roche and Suppliers
- Ability to facilitate communication between Roche Buyers and Suppliers using the tool
- Create and send documents online

A white award medal icon on a blue background.

Main Benefits

Efficiency & Effectiveness

- Efficient order fulfillment process to meet manufacturing requirements with the ability to capture all the required details
- Communicate granular demand to suppliers by multiple dates and quantities
- Ability to change or cancel POs and PO items in real-time, with the flexibility of suppliers to reject PO items
- Includes supplier invoice creation based on shipments and payment status updates

GEP NEXXE Scope

For Supplier Collaboration across Roche

Supply chain collaboration between Roche and Suppliers (Direct Material Suppliers & CDMOs) includes:

- Forecast Collaboration
- D2P - PO Collaboration
- ASN & CMO Report Production
- Vendor Managed Inventory & Consignment
- Quality Collaboration

360° Supplier view of all transactions in procurement process

Who

- Roche:
 - Buyer / Planner (Roche)
- Supplier:
 - Supplier's employee
 - Ordering Manager
 - Primary contact
 - New contact

What

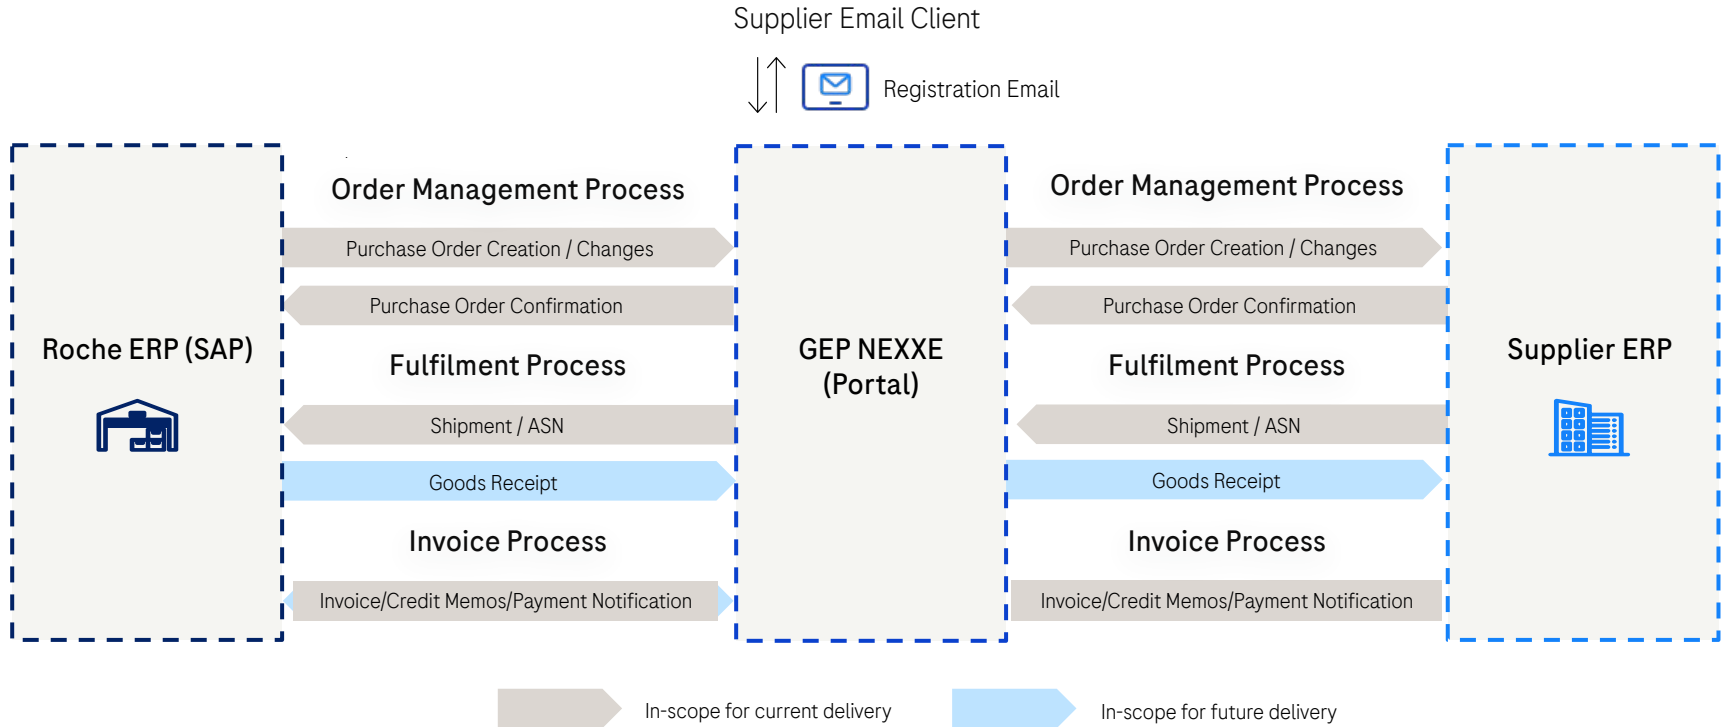

- Purchase Order (PO) is sent by Buyer/ Planner to Supplier
- PO confirmation is sent by the Supplier upon receipt of the PO
- ASN is sent by the Supplier when the materials are ready to be shipped

Why

Purchase Order (PO) confirmations and Advanced Shipping Notifications (ASN) are provided by Suppliers to ensure delivery schedules are met and any changes are promptly reflected in the supply chain process
